

# Group Environmental Policy

etrinsic recognises that the company's processes, products and services, and those of its suppliers, do impact on the environment and is committed to satisfying the requirements of BS EN ISO 14001:2004 and continually improve its environmental performance by implementing the following measures:-

- Comply with all relevant legislation and industry codes of practice.
- Seek to reduce our environmental impact through our own activities.
- Promote and encourage best environmental practice throughout our supply chain.
- Set objectives and targets to drive continual improvement programmes.
- Regularly review environmental performance to ensure continual success of our targets.
- Ensure all employees are aware of this policy, their own responsibilities in achieving targets and receive sufficient training to enable them to do so.
- The policy is available to all our customers, suppliers and the public on demand.

Matt Bird  
Group Managing Director
